

TM

mApp INITIAL SETUP INSTRUCTIONS

mApp Download

1. Using your phone browser, go to <https://www.evextec.com/app-download/> and click on {Android Application}

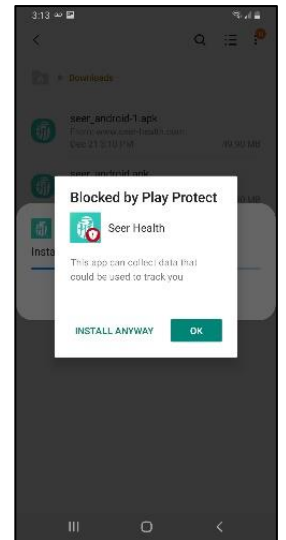

or scan this code:

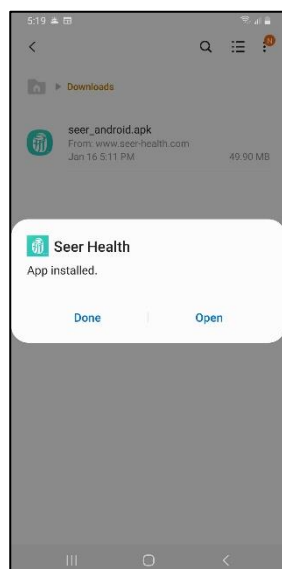

2. Download and install the seer_android.apk file.

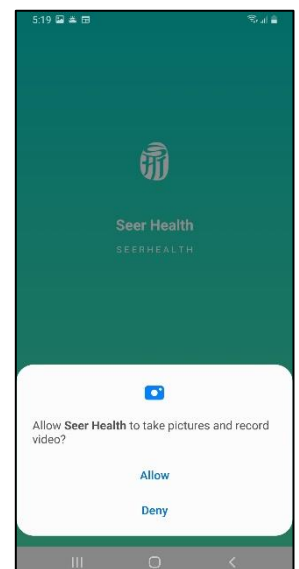

Note: If this message [Blocked by Play Protect] appears, click on {INSTALL ANYWAY}.

3. Open the App

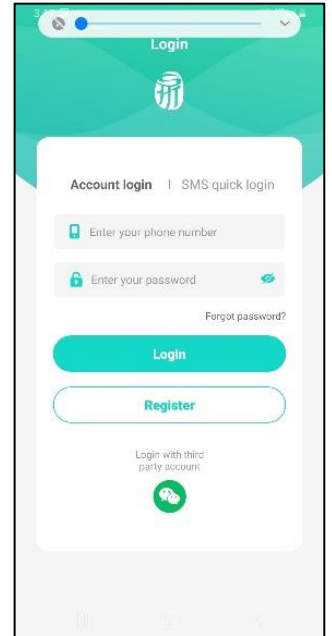

4. Allow the app to take pictures and record video, access photos, media, and files on your device.

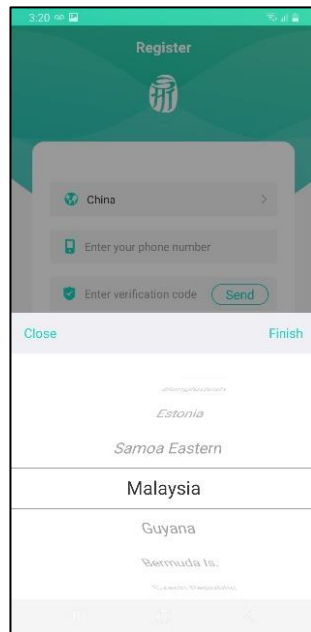

5. Scroll right to the screen where you can click on “Experience now”

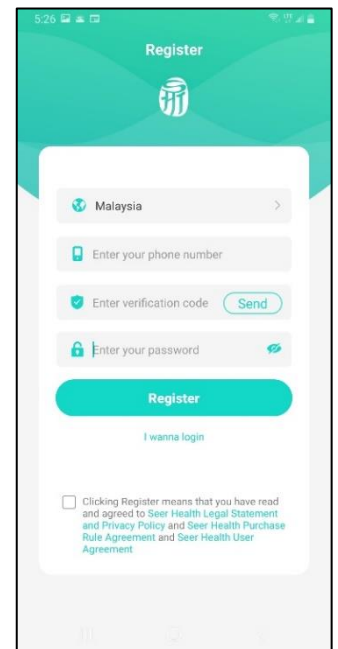

6. Click on “Register”

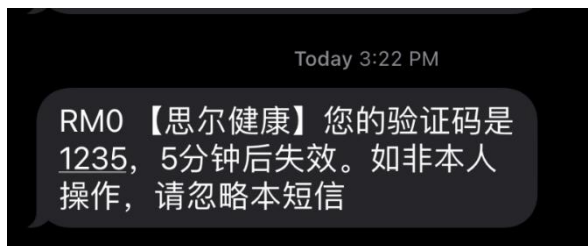

7. For the country selection, scroll down till you see “Malaysia”, then click “Finish”.

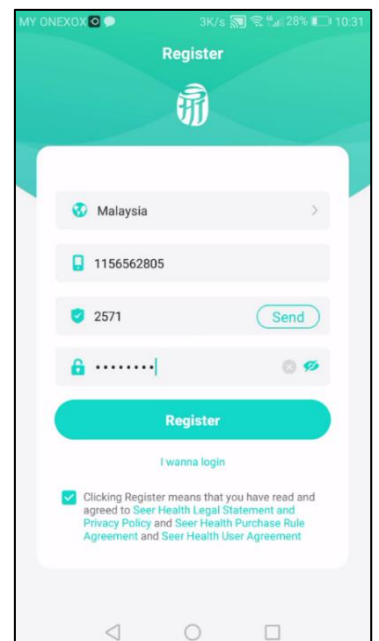

8. Enter your Malaysian handphone number.
Note: It is not necessary to enter the ‘0’ in front. eg if your number is 012-345 6789 then just enter 123456789

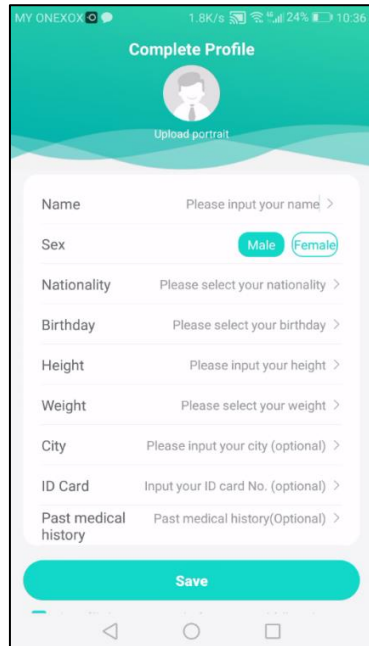

9. Click on “Send” in the [Enter verification code] row.
Note: You will receive a OTP SMS in Mandarin. Type the 4-digit number into the [Enter verification code] field. In the example below, it is ‘1235’

10. {Enter your password} - This is OPTIONAL – You may type in a password if you wish.
11. Click on “Register”

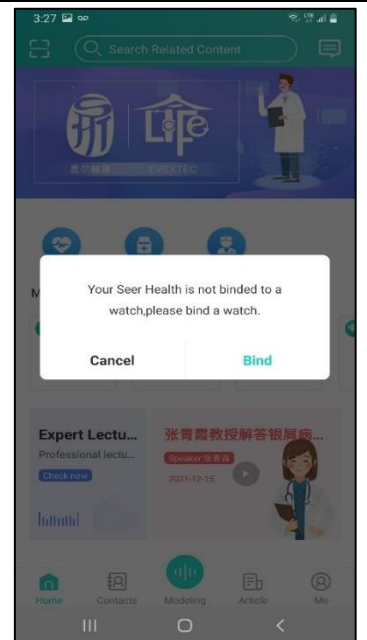

- 12. Key in your name, gender, birthday, height and weight
- 13. Click "Save"

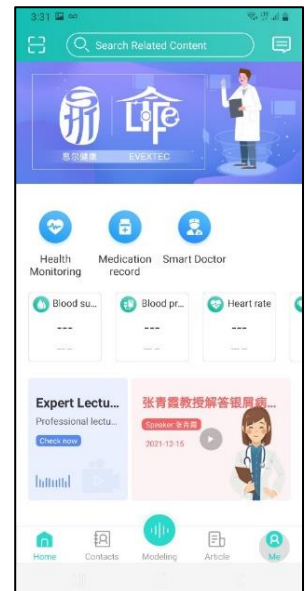

Binding the watch

- 14. Click on Bind
- 15. On your watch, access the QR code then scan the QR code (refer instructions below)

Your watch is now bound to your app.

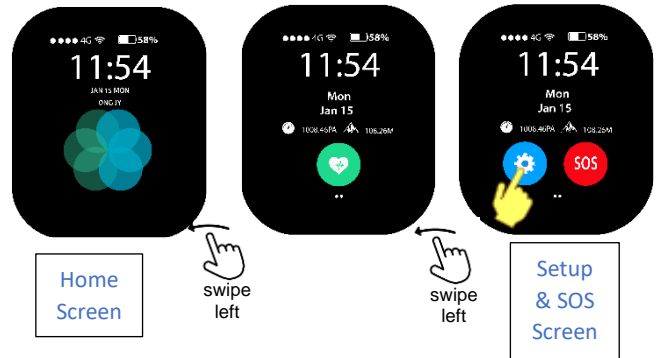

If you have not completed the Initial Modelling, please do before using your watch.

Access the QR code

1. Press [Side Button] to turn on watch.
2. Watch will show the [Home Screen]
3. Swipe left twice till you reach the [Setup & SOS] screen.
4. Touch the {Setup}  icon.

5. Swipe up till you see {About us}.
6. Touch the {About us}  icon.
7. Touch the QR Code. It will then show the QR code.
8. Scan the QR code using mApp.
9. Press the [Side Button] to exit.
